DETAILED ACTION

Claim Status

1. Claims 1-5, 8-35, 38-43, 45, and 54-61 are currently pending. Non-elected claims 36-37, 44, 46-53, and 62-63 have been withdrawn from further consideration. Claims 6 and 7 have been cancelled.

Response to Arguments

2. The response to the election/restriction filed on 12/12/2008 have been considered, however, the examiner made another restriction based on the distinct products as shown below:

Election/Restrictions

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) **1-5, 8-20, 22, and 38-45**, drawn to a conductive composition comprising a **cyano-containing polymer compound**.

Group II, claim(s) **21, 23-35, and 54-61**, drawn to a conductive composition comprising a **polyanion**.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

Art Unit: 1796

corresponding special technical features for the following reasons: The invention of Group I lack the technical feature of a polyanion as required in invention of Group II.

5. A telephone call was made to Mr. Mark Farley on 01/29/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
